

The use of natural resources is a major part of environment management within Bramall Construction. With this in mind the monitoring of natural resources and also waste generated is the key to establishing a greater understanding on the actual impact that Bramall Construction's activities have on the environment.

		2005/06	2006/07	2007/08	2008/09
Water Consumption	M³	2207	1924	1991	2087
Energy Consumption	kWh	374,169	396,174	414,000	397,682
Fuel Consumption	Litres	863,723	891,322	924,000	803,972
